

AMAN KUMAR

Full Stack PHP Developer & Team Lead

+91 8791796505 • amankumar879179@gmail.com • github.com/amangitthub • amangitthub.github.io/aman-portfolio • Miyanwala, Dehradun

PROFESSIONAL SUMMARY

Full Stack PHP Developer with 3+ years of professional experience designing, building, and deploying scalable web applications across diverse industries — including e-commerce, fintech, education, logistics, and professional services. Proficient in PHP, Laravel, and modern frontend technologies with hands-on expertise in REST API development, third-party payment integrations (Razorpay), Google Maps API, Firebase notifications, and mobile app console management. Proven team lead with a track record of managing end-to-end project lifecycles and delivering high-quality products on time.

WORK EXPERIENCE

Senior PHP Developer & Team Lead | Tulyarth DigiWeb

10 Mar 2025 – Present

- Led and managed a development team — task delegation, sprint planning, and ensuring on-time project delivery
- Developed and maintained robust web applications using PHP and Laravel framework
- Managed end-to-end deployment pipeline including staging, production releases, and post-launch support
- Administered web hosting on Hostinger — domain configuration, VPS server management, and SSL setup
- Managed Google Play Console — published, monitored, and updated Android applications
- Acted as primary liaison between clients and the development team for seamless communication and delivery

PHP Developer | Itarchs

Jul 2024 – Feb 2025

- Developed feature-rich web applications using Core PHP and Laravel framework
- Built and integrated REST APIs, designed database schemas, and implemented backend business logic in MySQL
- Collaborated in an agile team environment to deliver client-facing projects on schedule

Junior Web Developer (Trainee + Work) | Infonix Services Technology

2 May 2023 – 6 May 2024

- Received hands-on training and worked on live projects using HTML, CSS, Bootstrap, and Core PHP
- Built responsive and dynamic web pages by converting design concepts into functional interfaces
- Collaborated with the team to deliver client projects meeting quality and timeline expectations

PROJECTS

Taxabide — Taxation Services Portal — taxabide.com

- Built a full-featured taxation services platform with a client-facing portal for purchasing GST, ITR, and compliance services
- Integrated Razorpay payment gateway and cash payment options for seamless transactions
- Developed an in-app real-time chat system between clients and tax consultants

Tech: PHP | Laravel | HTML5 | CSS3 | Bootstrap | JavaScript | jQuery | AJAX | MySQL

Rydooo — Ride Booking App (Dehradun) — rydooo.com

- Built a multi-panel ride booking platform covering Admin, User, and Captain (Driver) panels
- Integrated Google Maps API via Google Cloud Console for live tracking, route calculation, and distance estimation
- Developed and connected Node.js APIs to power real-time ride matching and status updates
- Maintained a static marketing website alongside the dynamic web application and mobile app

Tech: PHP | Laravel | Node.js APIs | Google Maps API | Bootstrap | jQuery | AJAX | MySQL

Doonabide — Property & Business Management Dashboard — doonabide.com

- Developed a comprehensive multi-role dashboard for managing property sales, business listings, and worker accounts
- Implemented automated commission calculation system for property transactions and business deals
- Built modules for worker business tracking, performance monitoring, and complete business management
- Integrated Firebase push notifications for real-time alerts and updates across user roles

Tech: PHP | Laravel | HTML5 | CSS3 | Bootstrap | JavaScript | jQuery | AJAX | MySQL | Firebase

Owles — Online Education Platform — owles.app

- Developed a comprehensive e-learning platform with separate Teacher and Student panels
- Implemented features including online lectures, attendance tracking, teacher management, and user management
- Built real-time interaction features to support live teaching sessions

Tech: PHP | Laravel | HTML5 | CSS3 | Bootstrap | JavaScript | jQuery | AJAX | MySQL

Anshika Developers — Real Estate Portal — anshikadevelopers.in

- Developed a full-featured real estate portal with dynamic property listings, filtering, and detailed property pages
- Built a query/inquiry form system for potential buyers to connect with agents directly
- Implemented an admin dashboard for property uploads, lead management, and content updates
- Integrated Firebase push notifications for real-time buyer inquiry alerts

Tech: PHP | Laravel | HTML5 | CSS3 | Bootstrap | JavaScript | jQuery | AJAX | MySQL | Firebase

Mithas Ka Ghar — Online Sweet Shop — mithaskaghar.online

- Developed a full e-commerce platform for an online sweet shop with product catalog, cart, and order management
- Implemented dynamic product listing, search filters, order tracking, and admin panel for inventory management

Tech: PHP | Laravel | HTML5 | CSS3 | Bootstrap | JavaScript | jQuery | AJAX | MySQL

Sea7 Maritime — Corporate Website — sea7maritime.com

- Designed and developed a professional corporate website for a maritime services company
- Implemented dynamic content management with a custom admin panel for easy content updates

Tech: PHP | Laravel | HTML5 | CSS3 | Bootstrap | JavaScript | MySQL

LoanBazzi — Loan Services Platform

- Developed a loan services web platform featuring a dual-panel system for Admin and Users
- Implemented loan application workflows, document submission, and status tracking for end users

Tech: PHP | HTML5 | CSS3 | Bootstrap | JavaScript | jQuery | AJAX | MySQL

Anu Makeover Studio — Dynamic Salon Website

- Built a dynamic website for a makeover studio with service listings, gallery, and appointment booking features
- Developed a custom CMS-style admin panel for easy content and booking management

Tech: PHP | HTML5 | CSS3 | Bootstrap | JavaScript | jQuery | AJAX | MySQL

TECHNICAL SKILLS

Frontend: HTML5 | CSS3 | Bootstrap 5 | JavaScript | jQuery | AJAX

Backend: PHP | Laravel | Core PHP | REST APIs | Node.js (APIs)

Database: MySQL

Version Control: Git | GitHub | Git CLI

Hosting & Deployment: Cloud Hosting | VPS Hosting | Hostinger | Server Management

Cloud & App Console: Google Play Console | Google Cloud Console | Maps API

Integrations: Razorpay Payment Gateway | Google Maps API | Firebase Push Notifications

Tools: MS Excel | MS Word | MS PowerPoint | PDF & DOC Editing

Leadership: Team Lead | Project Management | Client Communication | Task Delegation

Currently Learning: React.js | MongoDB
